Implementation of the conference

Minority Protection and Ethnic Groups Rights in Central and Central Eastern Europe

The moderator helps to engage participants in a constructive debate, aimed at achieving the objectives of the sessions by ensuring that participants speak on the discussed topic.

Participants who wish to be added to the list of speakers during the conference are asked to use the "Raise Hand" function available in Zoom. Once the presenter hands the floor to a participant, the speaker must unmute and turn on the camera before speaking. After finishing his / her contribution, the speaker will mute and turn off the camera. This process is repeated for each participant who is given the floor.

In the event of technical problems (interpreting does not work / mute function does not work for someone who wants to intervene, etc.), the chat function is used to immediately inform the session host about the problem so that appropriate action can be taken.
